

St Peter's: Planning for the Future

Thursday 28th – Saturday 30th January

St Peter's has a vision to maintain its position at the heart of community life in Sudbury; a venue that welcomes all and that will continue to serve the town for years to come. The Friends of St Peter's has been working with The Churches Conservation Trust (CCT) to develop plans that will include new building work – providing much needed facilities – and an activity programme that brings the people of Sudbury together at this magnificent site.

This month we will be mounting interactive displays and activities that will give you the opportunity to:

- Tell us your thoughts on our plans
- Take part in some of the activities we would like to programme
- Give us your ideas for St Peter's and for Sudbury
- Talk with members of the Friends of St Peter's or the Churches Conservation Trust
- Give us your memories, and honest opinions, of the site

St Peter's belongs to Sudbury and we are committed to involving all the people of the town, of all ages and interests, in developing a vision for the future. With your input, we will be able to assemble a strong and engaging application to the Heritage Lottery Fund, which will help us to secure the building's success for future generations.

Thursday 28 January 10:00 – 2:00

Kettle & Fish

Join us for an extra special Kettle & Fish. Through interactive displays you will be able to tell us your thoughts on our plans, leave your memories and honest opinions of the site, and give us your ideas, while sipping on a warm cup of tea and nibbling a delicious piece of cake.

We will also be inviting children from primary and secondary schools in Sudbury to take part in storytelling and Young Enterprise activities. We would love for you to see these take place.

Friday 29 January 10:00 – 2:00

Farmers Market

It will be the Farmers Market at usual. But, while you pick up the week's carrots, the Friends of St Peter's will be around to meet with visitors, discuss the plans and get your views.

Saturday 30th January 11:00 – 3:00

Family Day: Green Man Masks, Church Beasties and Champing – What do you think about our plans?

Activities for all the family! Here are just a few things you will be able to do:

- Enter the Green Man Mask competition
- Hear about and draw the animals that live at St Peter's
- Make a plasticine house and put it on the Sudbury map

And through interactive displays you will be able to tell us your thoughts on our plans, leave your memories and honest opinions of the site, and give us your ideas for the town and the building.
